M.D., Ph.D. (karming-fung@ouhsc.edu)

Immediate ex-president: T. Edgar Huang
M.D., Ph.D. (tedgar.huang@camc.org)

Edgar, Thank you for your excellent service!

From the President

Greetings

Dear IACP members,

Let us first have a round of applause for Dr. Edgar Huang's excellent service as the President of our association. Edgar passed the torch to me in July and I sincerely apologize for this overdue greetings and correspondence.

There are several current and forthcoming activities that I would like to solicit your support and suggestions.

1. You must have heard about the recent tragic flooding disaster that destroyed many villages and grabbed hundreds of lives in Taiwan. Please offer your assistance as much as possible through any of the organizations already in effect. One of the official sources can be found at the Ministry of Interior website - http://www.moi.gov.tw/news_detail.aspx?type_code=01&sn=2929. Your generous contribution will be greatly appreciated.

Mei Li

Bo Han

2. Dr. H K Ng, the Chairman of The Association of Directors of Pathology of China (<http://www.cuhk.edu.hk/med/acp/adpc.htm>), would like to invite IACP as a collaborating society for the Eighth Meeting of the ADPC to be held in Shanghai on October 23-24, 2010. IACP has been a collaborating society for two of their previous meetings and the last one was in Beijing, 2008. At that meeting, Dr. Dongfeng Cao gave a lecture on behalf of IACP and Dr. Ng is asking for our continuous support by sending a speaker to participate the 2010 meeting. Please don't hesitate to provide your opinions regarding our continuous support for this meeting.

3. Another academic activity that our association should fully support is the Asia-Pacific IAP Congress to be held in Taipei from May 21st to May 24th in 2011. Dr. Jung Shih-Ming is the current President of Taiwan

Society of Pathology and IAP-Taiwan's President-Elect. Dr. Joe Ma from our association has been invited to join in their secretary committee and will represent IACP in liaison with TSP for further collaboration.

Congratulations!

2009 BAA Winners

Yanxia Li M.D. Ph.D., Loyola University: *"Extranodal Extension in Metastatic Axillary Lymph Nodes among Breast Cancer Patients"*

Hui Guan, M.D., Wayne State University: *"A Binary Grading System for Endometrial Carcinoma Compared with Existing Grading Systems"*

Mei Li, M.D., Ph.D, University of Chicago: *"The Status of Positive Surgical Margin at Radical Prostatectomy and Risk of Biochemical Recurrence: A Single Institution Experience"*
