

# IACP Newsletter

## 2010 Meeting Minutes

From the President

Dear IACP members:

It is my great pleasure to report to you that our 2010 Annual IACP Dinner Gathering and Evening Soiree at Washington, DC were successfully concluded. The Dinner Gathering was held at Tono Sushi restaurant, which is within 3 minutes walking distance to the Marriot Hotel. The close proximity and rather decent food provided a relaxed ambience for participants to enjoy a pleasant evening with a group of extremely amiable colleagues.

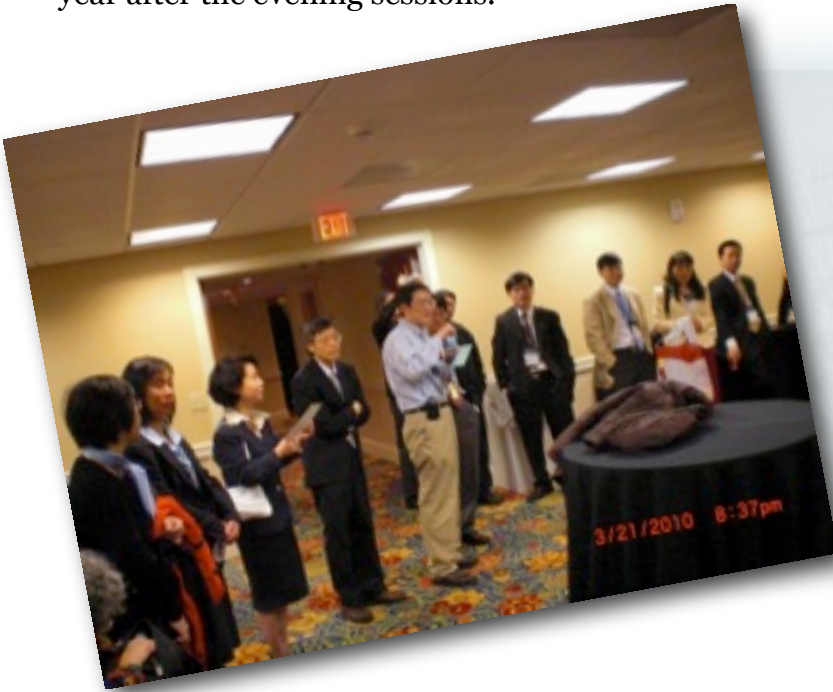

Before the dinner, I was very concerned with the attendance rate because I just realized my multiple emails with announcements and newsletters did not reach many members due to possible technical or other unknown reasons. To my relief, 44 people showed up at the dinner that really eased my anxiety. I also would like to thank our overseas members for taking extra efforts and long-distance travels to join IACP meeting.

TONO SUSHI  
Japanese & Asian Cuisine

We conducted our business meeting in a slightly different way this year. Since USCAP reserved a room free of charge for our association during annual USCAP meetings and last year's trial reception was encouraging, we decided to move some activities, such as presentation of Best Abstract Award and miscellaneous announcements to Monday night this year after the evening sessions.

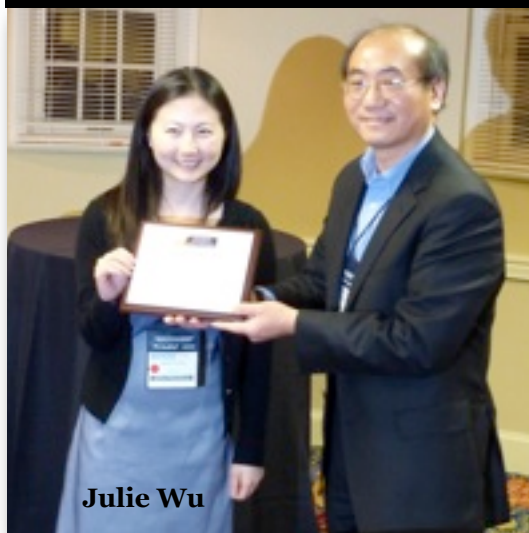

Professor Tzyy-Chouu (TC) Wu could not participate the Monday evening soiree, however, we “hijacked” his birthday cake earlier and blew the candles for him.

**Happy Birthday, TC !!!**

Dr. Shih-Ming Jung, President of Taiwan IAP Division, shared the preliminary agenda and other related information with us on the 7th APIAP Conference, which will be held in Taiwan from May 20 - 24, 2011. Our association will do the best to help and support this event; anyone who is interested in participating, please check <http://www.apiap2011.com.tw/> for further update.

Julie Wu

**2010 BAA WINNERS**

Julie Wu, M.D.

Haichun Yang, M.D., Ph.D.

Haichun Yang

We were very pleased to continue the IACP tradition of Best Abstract Award for pathologists-in-training. The Selection Committee, chaired by Dr. Gary Tse, was impressed by the high-quality abstracts submitted for consideration. Two abstracts were selected as the winners this year. The 2010 BAA awardees are: 1) Dr. Julie Wu, University of Washington Medical Center, Seattle, WA; and 2) Dr. Haichun Yang, Vanderbilt University Medical Center, Nashville, TN.

### **Congratulations, Julie and Haichun !!!**

We also highly appreciate the great efforts of the BAA committee, including Dr. Gary Tse (Prince of Wales Hospital, Hong Kong), Prof. Annie Cheung (University of Hong Kong), Puay-Hoon Tan (Singapore General Hospital), and Dr. Dengfeng Cao (Washington University).

The current Executive Committee (EC) will complete the term at the end of June, and Dr. Dengfeng Cao, President-Elect, will become IACP President starting July 1, 2010. The current officers will move to the notch above to take alternative responsibilities. Dr. Kar-Ming Fung will continue to be our Executive Vice President and webmaster. We will have an election next year for new incoming officers.
